HAYSEED HEARD FROM

He Loveth to Discuss the Money Problem.

WANTS A COMBINATION MEDIUM

The Corn Hustler and Rail Splitter Seemeth to Think That Honest Money Will Obtain at the St. Louis Convention--He Loveth Not the Buzzard Bay Duck Hunter.

EDITOR NEWS REVIEW—I note through the public press, and hear on almost every street corner and in the busy places of industry in your city, and even among the honest sons of toil, the farmers, that the subject of money is being discussed and in many cases causing confusion worse confounded. This is a subject which should be plain and simple to every citizen who has studied the constitution and history of the United States. What constitutes honest money? It is the medium and standard established by the sovereign power of governments, by which commerce is carried on among civilized people and nations. Silver and gold have been used as current money among the nations of the earth from time immemorial, as we read that Abraham bought from the sons of Heth a burying place, and paid for it four hundred shekels of silver, current money with the merchant in the commerce of that early day in the world's history. As civilized nations advanced in intelligence, bills of credit have been introduced by the sovereign power of governments, both as standard of value and medium of exchange. Section 8 of the constitution of the United States conferred upon congress the sovereign power to coin money, regulate the value thereof and of foreign coin, and fix the standard of weights and measures. Section 10 denied the states the right to coin money, emit bills of credit, or make anything but gold and silver coin a tender in payment of debts, reserving the money making power and the issuing of the same, and regulating the value thereof by the sovereign power of the whole people of the United States, through congress. In 1792 a mint was established and the coining of both gold and silver was authorized, at the ratio of 15 to 1. From that time until 1834, with the exception of the years 1816-17, we coined some each year. In the year 1834 the ratio was changed to 15-988, or about 16 to 1, which is still the ratio. The two metals were coined at our mints free, by the parties owning bullion paying mintage. In the year 1849, congress authorized the treasurer to buy silver bullion and coin it at the ratio of 16 to 1, which was done, and both coins were standard money and a full legal tender, in any quantity, for all debts, public or private, until 1873, when the silver dollar was dropped from our currency and the trade dollar authorized. In 1874 the legal tender of all silver coins was fixed at \$5. This made the demonetization of all silver coin complete in the United States, and our vast debt, public and private, instead of being payable in coin of either metal, became payable in gold alone. This gross act of treachery to the constitution and laws, in changing the contract after the debts of the nation had been bought up at from 40 to 50 cents on the dollar, payable in coin, and the interest only in gold, called down upon congress the anathemas of a free and law-abiding people, and Republicans and Democrats alike disclaimed all knowledge of intentional demonetization. Nevertheless, silver was demonetized, whether honestly or dishonestly. Its consequences were full of injustice to the American people and injury to the nation, while the fall of prices affected the producers and also the debtors of America most keenly. Then began agitation for its restoration, the Bland-Allison act of 1878 providing that the government should buy and coin not less than two million dollars nor more than four million dollars worth of silver bullion each month, and that the dollars thus coined should be full legal tender for all debts, public and private, except where otherwise expressly stipulated in the contract. By this act, silver was restored to its place as standard money.

The government, in the hands of loyal Republicans and their principles of government, carried out the tariff idea of protection sufficiently to run the Federal government, and to rapidly pay the public debt. The bullion, gold and silver, bought and coined fairly by the government, and in the interest of the people, and an irreducible debt of the government, in the shape of greenbacks, increased as commerce demands, in payment of internal public improvements and water ways, with all used as standard money in payment of all debts, public and private, except duties on imports and interest in public debt, exchangeable for gold or silver, or payable in either--this is the kind of money which the farmers ask for, and such as the constitution of the United States contemplates. We hayseeds are bimetalists, and we will demand and insist upon—not free, but fair coinage, in favor simply of good government, and not merely to gratify mine owners and individuals. If the Republicans assembled at St. Louis declare for fair coinage, and make gold, silver and greenbacks standard money, they will win. If they declare for gold as the only standard money, they will lose, even if the clam of Buzzard's Bay votes for our own McKinley. If that fat fraud and idle producer would dare cast his vote for Ohio's choice, the choice of the nation, thousands of Mac's admirers would be sure something was wrong with their idol, that he should have such contumely come nigh unto him. The best thing Grover could do would be to imitate his pattern Judas; cast himself down and burst asunder, as just punishment for the financial and industrial ruin his administration has brought upon this great country, while the duck hunter and soldier hater legislated and worked for the money power of this and other nations.

A PRIZE FIGHT.

Two St. Clair Township Boys Settle Their Difficulties.

The fact that a prize fight occurred a few miles from Calcutta a few nights ago has just come to the surface. The participants were two young men from St. Clair township, who took this method of settling their difficulties. For several days before the fight took place the young men had been arranging for the affair, and one evening the latter part of last week they met at a given point with their seconds and a few friends. They went at it la Sullivan, but the bout had lasted only three rounds when one of the pugilists threw up the sponge, saying that he had enough.

ARE KICKING

Against the Latest Edict Issued by the Health Officer.

A strong kick is being made against the latest edict issued by the health officer, which orders that all manure boxes shall be removed from alleys and placed within the stables. This action was taken at the instance of a number of complainants, who say that ill smelling odors arise from the presence of these boxes and permeate the atmosphere to the extent of entering their households. If these charges are unfounded the proper thing to do is to bring the matter before council and let them decide whether or not this rule shall be adopted.

POSTPONED

Further Entertainments Until After the Fourth.

The Ladies' auxiliary will not give any more entertainments to the pottery employees until after the Fourth of July. The entertainments will then be taken up once more and kept going until every pottery in the city has been entertained. The reason for postponing the Friday evening entertainments is that so many of the potters will shortly shut down and it would be hard work to get invitations to all the employees of the plants to be received. Another reason is that everybody is busy about this time of the year, and it takes a great deal of labor to get up a program.

VISITED WELLSVILLE.

The Ladies' Missionary Society Held Their Quarterly Convention.

The ladies' missionary societies of the First and Second U. P. churches visited the Wellsville society last night, and had a very enjoyable time. These meetings are held quarterly, the societies meeting together for the purpose of advancing the welfare of each other and talking over the best plans of doing missionary work. An unusually large delegation from the societies here attended the gathering and returned on the last street car, being well repaid for their trip.

TAKING MEASUREMENTS

To Be Produced In Court to Substantiate Damage Suit Claims.

County Surveyor I. P. Farmer, with a corps of assistants, drove over from Lisbon this morning to make a number of surveys at different points along the electric line. The measurements taken will be used in court to substantiate the claims of the county commissioners in their action for damages against the East Liverpool and Wellsville Street Railway company.

Held a Meeting.

The Union Ex-Prisoners of War held a meeting at Grand Army hall and talked over reminiscences of the war. It was decided to hold a social the last Monday in this month. The meeting last night was an interesting one.

THEY CAME TOO SWIFT

For Peter Swift and He Was Swiftly

CONVEYED TO THE CITY HALL

Rudely Interrupted In the Midst of a Political Speech Si Hontzleman Was Unable to Attend the Saengerfest and Celebrated In the City.

Peter Swift is the name of an individual who was soaked with the beverage that muddles last night, and was stumping lower Broadway on the political situation. Beer and whiskey had come too "swift" for Peter, and alteration of spirits succeeded in impeding navigation. This did not have any effect on his oratorical powers, however, and he delved into the issues of the day—the presidential possibilities and impossibilities, the financial situation and Cuban insurrection, with side notes on the bond election—in a manner that won commendation and condemnation, principally the latter, at the hands of the mass meeting assembled.

In the course of his remarks he incidentally mentioned the McKinley band wagon. Officer Earl meandered along at this juncture, but misunderstood the orator's meaning and called up the patrol wagon. On its arrival, Peter explained that patrol wagons at that time were farthest from his mind and that he was talking band wagons—McKinley band wagons. Officer Earl was somewhat abashed by his error, but as the conveyance had arrived, he invited Peter to accept his hospitality and together they would take a short spin through the streets. The orator declined with profuse thanks, but the officer insisted, and Peter was carefully placed in the vehicle. During the ride, in which the numerous places of note were viewed, the kind officer, realizing that he had no uncommon personage in charge, kindly tendered Peter the use of the city hall for an oration, which was finally accepted, although he thought the officer a little too kind. He was provided with a comfortable chamber, and concluded to postpone his political harangue for the time being, and sank into a profound sleep.

The city barouche was taken to the station, where another call was awaiting. In order to not cause the prospective passenger any unnecessary inconvenience, the driver quickly sought the box number on Cook street and found Marshall Johnson carefully guarding the prostrate form of Si Hontzleman. Si had been unable to attend the Saengerfest in Pittsburgh, and decided to celebrate the event in this city, starting but with that intention early in the afternoon. An immense quantity of his national beverage had been stowed away, and when night came Si was very tired. Preferring the cool night air to a close, sultry room, he selected a grassy spot near the pavement and was soon in the arms of Morphus, dreaming of Faderland and sonorously snoring, "De Wacht am Rhein." The marshal happened along, and fearing lest Si should contract a severe cold, called up the city conveyance. He was gently placed in the vehicle and taken to the city hostelry. The guest was too sleepy to register, but was assigned comfortable quarters in which to resume his dreams.

This morning Hontzleman and Swift were arraigned and fined. The former was assessed \$6.75 and the latter \$7.75. Both were without funds and are still in jail.

FOR CHARITABLE PURPOSES.

A movement is on foot to have all the choirs of the various churches of the city unite and give a grand concert in the opera house, the proceeds derived from the project to be set aside for charitable purposes. It is intended to hold the affair late in the fall. The proposed move is certainly a laudable one, and should meet with encouragement.

Fight in a Grocery Store.

A stirring fight is reported to have taken place in a grocery store on the hill last night. The proprietor and several customers became involved in a conflict, with the result that the latter were all forcibly ejected from the room.

A number of the Presbyterian church choir, who will take part in the organ recital at St. Aloysius' church, practiced for the event in the latter church last night.

A BIG DEMONSTRATION

Will Be Held on the Evening of McKinley's Nomination.

ARRANGEMENTS ARE BEING MADE

By a Committee Appointed by the McKinley Club—Will Be a Grand Parade, Speech Making and Fireworks Galore—A Rousing Ratification.

The McKinley club was called to order last night by Vice President Clark, the president being absent. The regular business was disposed of and the club settled down to talk about the coming convention at St. Louis. As the members of the organization were of the same opinion as everybody else in regard to McKinley being nominated for president on the first ballot, the idea of having a demonstration, to show their appreciation of his nomination, was suggested and met with the hearty approval of every person present.

A committee, composed of Martin, Ashbaugh and Timmons, were appointed to make arrangements for one of the grandest Republican turnouts ever held in the city, on the evening of the day that the word of Major McKinley's nomination is received here. All preparations will be made just as if the day and date were known to the committee. Bands will be engaged to lead the procession and there will be any amount of fireworks to enliven the occasion. People will be asked to decorate their houses along the route of the parade, and a celebration will be had that would certainly warm the heart of the gallant major if he could be present to see the high appreciation with which the East Liverpool people will greet his nomination as standard bearer of the Republican party. The Fifth street rink will be engaged, and speeches will be made by prominent orators of the city. Speakers from a distance will be communicated with, and if possible secured for the affair; but it is hardly thought the committee will have time to make such arrangements. Should the crowd prove too large for the rink, a platform will be erected in the street, and the orations will be delivered there. A special meeting of the club has been called for Saturday evening, when the committee will make a report and complete all arrangements.

A number of communications were received from the Ohio Republican league in regard to the coming campaign, and one from the Fifteenth ward National Republican club, of Chicago, asking the McKinley club to support General McAlpin for vice president. The communications upon a vote were received and ordered filed. After an informal talk as to the St. Louis convention and the usually bright chances of the Eighteenth district being represented in the presidential chair, the club adjourned to meet Saturday night.

EXCURSIONS TO DENVER.

June 12 and 13 excursion tickets will be sold on Pennsylvania lines, account Republican National convention, good for return until June 21, inclusive, or one day after adjournment of convention. For particulars apply to Adam Hill, ticket agent, East Liverpool, Ohio, who will also reserve Pullman car accommodations from Steubenville.

Bound for England.

The following people will set sail for England on July 4, on a short visit to the old sod: William Hughes, Mrs. Sarah Harley, John Hedge, Mrs. Ann Lyth and daughter, Miss Lucy. The number from this place who will cross the ocean this year is an unusually large one.

WILL PICNIC.

The Daughters of Liberty will hold their sixth annual picnic at Rock Springs next Friday. A large number of invitations have been issued, and the former efforts of the society in the picnic line are a guarantee that an enjoyable time will be had by all who attend.

TO VISIT HIS ROOMMATE.

Doctor W. F. Stone, of New York, will arrive in the city tomorrow morning to spend a week or 10 days with Dr. J. E. Toot. The two gentlemen were classmates and roomed together for three years while pursuing their medical studies.

THE FIRST OF AUGUST.

The certificates of medical registration of the physicians in the city will probably not arrive before August 1, as it will take the authorities at Columbus that length of time to reach the medical men of East Liverpool.

A GOOD MEETING.

The East Liverpool Medical society met last night in Dr. J. E. Toot's office. The meeting was one of the best the society has held since the organization, as almost every member of the society was present.

A STARVATION BID.

The following is from the Toronto Tribune: "The East Liverpool council has ignored the daily press and given the city printing to a weekly paper, which secured the contract on a starvation bid."

MORE SUSPENSION NOTICES RECEIVED.

More suspension notices are being received from the League of American Wheelmen by those who participated in the bicycle races last Labor day at this place. These misses are evidently sent.

THE COLOR LINE.

Common sense has settled the matter in St. Louis, and the colored delegates will receive all the recognition to which they are entitled.

ALL OVER.

It seems all over but the shouting, and instead of talking about McKinley being nominated on the first ballot, the common remark now greets you: "I guess they'll nominate him by acclamation."

HONEST MONEY.

The indications are that "honest money" will control at St. Louis; such money as will appeal irresistibly to all honest, country-loving, honor-loving voters, with the result that McKinley will sweep into power with a mighty rush of ballots.

MARCUS A. HANNA.

Marcus seems to hold the balance of power at St. Louis, and apparently possesses sufficient magnetism, intellect and intelligence to control affairs in right shape, while there at present appears no indications of an unduly expanded cranium on his part. Success attend him in all good measures, induced through love of country and common sense ideas of industrial prosperity.

THE REACTION.

An evil act may prosper for the time being, but it is eventually doomed, when reaction takes place, to ignominious defeat. At times good and true men get weary in waiting for the reaction to materialize. But such is not the case respecting the late school bond issue placed before the people. Unworthy motives controlled the men who were instrumental in defeating it. So plainly is this now apparent that reaction has set in at once, and hot condemnation is already being given the offenders, those who placed the present school board in an unpleasant predicament, through failure to attend to business in a proper and businesslike manner, and then, with unaccountable perversity and blindness, attempt to block the new board when it attempts to remedy the blunders of the old board. The people will not be satisfied with six months' schooling in the year; and yet a portion of the people have so manipulated the matter as to, at present, give this feature as the only alternative. The new board is a worthy one. The members are earnest, intelligent, honest and conscientious, and the great mass of our conservative citizens will see to it that they have fair play, and that no exhibitions of petty malice or spite shall be permitted to block or hinder them in their good work for the city. Turn on the light. The new board is in the right, and right will win.

FALSE ECONOMY.

THEY HAVE BEEN GREAT SELLERS

No Stickers, as we Call Them.
Stickers are Poor Sellers.

This is the reason many merchants find themselves at the end of the season with too many stickers, and their suits carried over from one season until other seasons, accumulating what is known as old stock or over stock of undesirable goods.

We are Making a
Special Sale This Week.

WHAT WE CALL SELLERS—Suits that have been sellers with us this season, nobby, stylish, up-to-date goods. Of these suits you may find one, two or three of a style left.

Suits that are worth and sold by dealers at
\$13.00, \$14.00, \$15.00, \$16.00, \$17.

Choice \$10.00

These prices will knock out stickers, poor sellers, sweat-shop-made clothing. The greatest sale of suits in the city.

400 QUARRYMEN STRIKE.

They Refuse to Allow Cars Moved at Berea.

BEREA, O., June 12.—Four hundred quarrymen have gone on strike at the quarries of the Cleveland Stone company, near this place. The men demand that all non-union men be discharged and that several union men who were recently dismissed be reinstated.

The strikers have taken possession of all loaded cars and refuse to permit them to be moved, and it is thought trouble will follow.

Suits Involving \$100,000.

COLUMBUS, June 12.—C. B. Pierce, an Athens lawyer, has filed a petition in the supreme court asking for a writ of mandamus to compel the auditor of Athens county to pay bills to the amount of \$1,800 for work done on contracts entered into under the Athens road law, recently declared unconstitutional by the supreme court. Suits will shortly be brought to test the validity of contracts amounting to \$100,000, entered into under the law mentioned, on which no work has yet been done.

Creeelman Expects a War.

SPRINGFIELD, O., June 12.—James Creeelman, the war correspondent, who had to leave Cuba recently by order of General Weyler, says he thinks there will be a war with Spain. He says the American people will be thunderstruck when the documents in possession of the state department are made public. Spain is anxious for war. Twenty-five million dollars' worth of American property has been destroyed in Cuba and many Americans have been killed without provocation.

An evil act may prosper for the time being, but it is eventually doomed, when reaction takes place, to ignominious defeat. At times good and true men get weary in waiting for the reaction to materialize. But such is not the case respecting the late school bond issue placed before the people. ST. LOUIS, June 12.—A special from Fort Worth, Tex., says that Louis Whitehead, George Johnson and Jim Reddick, who were lynched here, were hanged, not burned, as reported.

DEFIANCE TO SILVER.

Straightout Gold Plank to Be Adopted at St. Louis.

INDIANA PLANK IS FAVORED.

With All Reference to the Ratio Stricken Out—No Hope of Being Able to Satisfy Teller and His Followers—The Tariff Section Similar to Ohio Plank.

ST. LOUIS, June 12.—There are hundreds of forms of financial planks for the Republican national platform at the McKinley headquarters in St. Louis and in the hands of McKinley's friends, who will largely determine what the platform shall be. More than a week ago there was sent out various forms of a financial plank and intimations made that it was a form of declaration which was wanted.

This was done for the purpose of securing views and financial planks from all sections and from people interested in the character of the financial resolution. The result has been as anticipated and platforms have been coming in by letter and by telegraph from every part of the country. The McKinley managers have not only been able to obtain forms for financial planks, but they have also been able to secure the views of men all over the country whose opinions are worth having.

The more the matter is considered the more probable it appears that the national platform will conform very close to that of the Indiana convention, with all reference to ratio stricken out.

The Indiana platform declares against the free and unlimited coinage of silver "at a ratio of 16 to 1." It is proposed to cut off the sentence quoted and end with a straight declaration against free coinage. It is asserted by the gold men that if the declaration is against free coinage "at a ratio of 16 to 1" it will give opportunity "to say that there is no declaration against 15½ to 1, or 16½ to 1, or to any other ratio than that designated in the platform."

The insistence is strong that there shall be no chance to declare the platform is a catch or that it means anything more than it says, or that it can be construed in one part of the country for silver and in another section against silver. It is quite apparent that there is a determination to make the platform for the single gold standard, but there is a desire to avoid a declaration emphatic in these words, as it is believed that it would be offensive to some sections of the country, and particularly several states in the Mississippi valley. All expectancy of forming a financial plank, which would be satisfactory to Teller and his followers from the silver producing states, has been long abandoned.

Silver men so pronounced as these have also abandoned any idea, if they ever had one, that a straddle of any kind could be framed which they could construe for any possible use against a straight 16 to 1 declaration of the Democratic convention.

Other features of the platform are also under discussion, especially the tariff plank. While declaring for the American system of protection, it is quite probable that the Ohio platform will be closely followed. At least that has been the talk among the McKinley leaders whenever the tariff plank has been mentioned.

It is understood to be a part of the program to have the leaders of the various delegations confer and agree upon a platform, so that a committee on resolutions may be selected which will report a platform that will not precipitate a fight on the floor of the convention between those who favor an anti-silver declaration. A fight from the silver men cannot apparently well be avoided.

Colonel Trumbo, one of the delegates from Utah, has given out the following as the declaration which he thinks the western men would be willing to accept on the silver, lead and wool questions:

"The Republican party is in favor of the free and unlimited coinage of gold and silver at the ratio of 16 ounces of silver being equivalent, in all the functions of money, to one ounce of gold when coined into dollars of the United States of America."

"The Republican party, no less eager today than in the past to uphold the interests of those engaged in the raising of wool, hereby stands committed to the reinstatement of the schedule on wool as enacted in the tariff law of 1867."

"The Republican party is in favor of the re-enactment of the tariff of 1890, providing for a duty on lead ores, without taking note of the value of the silver associated with the lead in the ores imported."

Delaware people are called "Mushratters," an allusion to the former abundance of these animals.

The ice cream is the best made, all flavors, large or small quantities. The confections are rich and pure. The drinks at the fountain are delicious, made from pure fruit juices.

Today the employees of the bridge are receiving their monthly pay, and consequently are in a happy frame of mind.

Rev. Fouts and John Thompson caught seven bass at the government bridge, Beaver creek, yesterday afternoon.

The packet Virginia is due up from Cincinnati today. River traffic is falling off. The stage of water is slowly increasing.

Charles Simms, foreman of the Kit-tanning pottery, is in the city visiting his parents, during the shutdown of that plant.

The Schenley Social club held a very enjoyable picnic at Rock Spring last night. The affair was attended by a large crowd.

Dan Cochran left the city Wednesday night, carrying a satchel in his hand. He said he was bound for San Francisco, Cal.

The new addition to Goodwin's pottery will be finished in about a week. During its construction the plant has been lying idle.

The picnic given by the Flabbergasters, at Columbian park yesterday afternoon and evening, was attended by a large number of invited guests, who enjoyed themselves to the utmost.

The Browney Minstrel company have reorganized and are already booking dates for the coming minstrel season. A number of new people have been secured and the boys expect to give a good performance.

A lad, whose name was not learned, was thrown from a pony on Jefferson street, between Fifth and Sixth, last night. The animal shied at an object, and becoming fractious, threw its rider off. The lad was not injured.

Commissioner Finley's force has finished laying a two-inch sewer pipe on Ravine street. The residents say that the pipe is not near large enough to drain off all the sewerage of that street and may easily become stopped up.

The case of A. L. Hughes against Henry Allison, for \$106.50, balance due on account, to have been heard before Squire Morley this morning, was postponed by mutual consent of the counsel in the case until Tuesday week.

A large circle of friends called at the residence of Joshua Chadwick, Lincoln avenue, last night and were royally entertained. A number of vocal and instrumental selections, well rendered, served to make the occasion an enjoyable one.

To settle a point in dispute as to what the proper name of Calcutta road is, County Surveyor Farmer was approached and stated that the records at the county seat designated this thoroughfare as the Liverpool and Warren state road, and not St. Clair avenue.

Three young ladies were riding bicycles on Sixth street last night. Suddenly one of their wheels struck a stone and the three machines came together, throwing the young ladies to the ground. They jumped to their feet in a hurry, and, untangling the wheels, rode off.

A German, a passenger on the west-bound train yesterday afternoon, created no little amusement by rushing from the cars while the train remained at the depot, and going to a nearby saloon, returned with a "growler" of beer, of which he and a companion took long, copious draughts.

There were six excursion tickets sold to St. Louis this morning. In addition to those mentioned yesterday as going to the convention are Mr. and Mrs. Clay Gould, and the latter's sister, Miss Belle Stewart. They will remain in St. Louis a short time and then proceed to Mexico, Mo., to visit relatives.

Calcutta road is commencing to assume a less rural air, now that pavements are being laid. The north end of Walnut street has been graded down flush with the reduced level of Calcutta road, and all that is wanting to give that point a metropolitan appearance is the electric light that council promised to put there about a year ago.

Invitations have been received by a number of residents to attend the marriage of Miss Emily Ball, of Trenton, N. J., to Mr. John Burton, of the same place. The bride prospective formerly lived in East End, this city, and was widely and popularly known. The ceremony will be performed at the East Trenton Presbyterian church, Thursday next, at noon.

A LAW'S FATE AT STAKE.

Supreme Court Hears Arguments on a Case Involving the Excise Tax.

COLUMBUS, June 12.—The three cases of the Adams Express company, the American Express company and the United States Express company against the state of Ohio have been argued in the supreme court. The cases came up on error from the circuit court of Franklin county, and were brought to test the constitutionality of the law passed May 14, 1894, imposing an excise tax on express companies.

The court of common pleas and the circuit court of Franklin county both sustained the law, and the cases were carried to the supreme court for the purpose of reversing decisions of the lower courts.

The questions involved are, first, the constitutionality of the act; second, whether the excise act could be charged and collected for the year 1894; the act having been passed May 14, 1894; third, the proper construction of the act with respect to ascertaining the gross receipts upon which the tax is to be computed; fourth, the legality of the action of the state board charged with the duty of ascertaining the gross receipts; fifth, was the penalty rightly assessed. Ramsey, Maxwell & Ramsey appeared for plaintiffs in error, and J. K. Richards and Attorney General Monnett for defendants in error.

The decision in this case will settle the fate of the Goodale excise tax law, as the principle of the two laws is precisely the same.

POSITIVE ACTION DEMANDED.

Philadelphians Preparing an Address to the St. Louis Convention.

PHILADELPHIA, June 12.—The Union League of this city has appointed a committee of 15 members to prepare and present to the St. Louis convention an address urging the convention to insert in the platform of the party "an open, clear and positive declaration, opposing the free coining of silver and insisting upon the maintenance of the existing gold standard of value;" declaring for the policy of protection and reciprocity, and demanding the enactment of laws which will give to the government an adequate revenue. The committee is made up of the following well known public men:

State Senator Boies Penrose, John H. Converse, Alfred C. Harrison, Winthrop Smith, C. William Bergner, George D. McCrary, William Sellers, Hon. John Russell Young, Congressman Bingham, Henry W. Brown, James V. Watson, E. A. Hancock, Hunter Brooke, William H. Barnes and Hon. William Potter.

POSITIVE ACTION DEMANDED.

Philadelphiaans Preparing an Address to the St. Louis Convention.

PHILADELPHIA, June 12.—The Union League of this city has appointed a committee of 15 members to prepare and present to the St. Louis convention an address urging the convention to insert in the platform of the party "an open, clear and positive declaration, opposing the free coinage of silver and insisting upon the maintenance of the existing gold standard of value;" declaring for the policy of protection and reciprocity, and demanding the enactment of laws which will give to the government an adequate revenue. The committee is made up of the following well known public men:

State Senator Boies Penrose, John H. Converse, Alfred C. Harrison, Winthrop Smith, C. William Bergner, George D. McCrory, William Sellers, Hon. John Russell Young, Congressman Bingham, Henry W. Brown, James V. Watson, E. A. Hancock, Hunter Brooke, William H. Barnes and Hon. William Potter.

Said to Favor Bulkeley.

NEW HAVEN, Conn., June 12.—The Leader (Republican) of this city says that it has positive information that definite assurances were given to ex-Governor Bulkeley by the McKinley men, during his recent visit to Cleveland, that he would have the support of the McKinley delegates for vice president, if he desired it, and that those assurances have since been repeated.

A FRENCHMAN'S GENIUS

A Body of Clay that Requires but One Firing.

NEEDS NO GLOST KILN OR DIPPING

The Ware Comes Out of the First Kiln Beautifully Glazed—Will Start a Pottery in Baltimore—Local Potters Interested in the Project.

After many years of careful and deep searching and experiments, Henry Carl Dangler, a Frenchman, who has been a resident of the city during the past two years, claims that, as the result of his labors, he can produce a body of clay that will only require one firing, the ware made of this material coming out of the first kiln covered with a fine coating of glaze. If the result of these experiments are practical, it is evident that there is a fortune in store for the inventor, as under this method the glaze kiln and dipping house will be disposed of, and the number of employees accordingly reduced, therefore greatly curtailing the expense of operating the plant, and materially lessening the cost of production of ware.

Mr. Dangler has applied for a patent on his valuable discovery, and went to Pittsburgh today, to consult with Attorney Eberhart, of that place, who has the matter in charge.

The elements used in the composition of the body, of course, are kept a profound secret, and as it will be protected by a patent, the right to use this material will have to be purchased from the patentee.

Mr. Dangler intends to enter into the manufacture of art goods, and together with a number of skilled potters, who are interested in the project, are making negotiations to secure a small pottery at Baltimore, Md., to carry into execution their intentions.

The color of the body, previous to firing, is of a decided jet black hue, but after that process takes place, it becomes transformed to a dazzling whiteness, covered with a beautiful glaze, producing a quality of ware that, it is claimed, is infinitely superior to high grade china ware.

Mr. Dangler is a practical potter of some renown, having had under his supervision the management of several potteries in France, and also an art pottery in Carlsbad, Germany. During his stay in this country his ingenuity has asserted itself several times. The invention of a three-decker kiln, for which he was offered a large sum, gave him no little prominence. He has also successfully operated a number of jumbo jiggers in the city.

In starting out in this pottery venture at Baltimore, it is proposed to manufacture several grades of ware, the artistic class as well as the article of low value. The projectors of the enterprise, for reasons best known to themselves, do not wish their names made public at present. They have witnessed a number of trial experiments and are eminently satisfied with the results obtained.

Should the new body come up to expectation it is at once apparent that the pottery industry will be revolutionized.

Matters of Interest from the County Capital.

APPLICATION FOR A NEW TRIAL

Overruled by Judge Smith in the Manor-Quay Case—Mrs. Vealey's \$500 Damage Suit Up for Trial This Morning—Granted a Divorce.

LISBON, June 12. [Special.]—Rebekah A. and Joseph Greiner and Sarah A. Metsgar, of Salem, filed an action today against the Koll creditors, asking the court to rectify a mistake which was made in the disposition of a piece of land which was purchased by them at a sale ordered by the probate court last August. The mistake has been carried all through the proceedings and appears as a cloud upon the title. The matter was rectified by the court as requested.

Adam Brinkey was given a verdict in court this morning against Charles Hagan, of Hanover township, for \$3,020.82, due upon a promissory note given six years ago. A 120-acre farm in Franklin township and 31-acre farm in Hanover township will be sold to obtain the amount.

Judge Smith this morning overruled the motion for a new trial by the defendant in the case of John M. Manor versus John G. Quay. This case was brought this term of court and was decided in favor of Manor, who sued to recover \$300 damages from Quay for having circulated misrepresentations in regard to stock in the Specialty Glass works, of East Liverpool.

William Miller, of Salem, was arraigned this morning on a charge of assault and battery, to which he pleaded guilty, and was fined \$10 and costs.

The hearing of Miss Mary Vealey's \$500 damage case against the village of Salineville was on in court this morning, and at 11 o'clock the jury retired. Mrs. Vealey is a cripple, having but one leg, and of necessity using a crutch. During August, 1894, while crossing the bridge near the lockup, her crutch caught in an opening in the floor of the bridge, throwing her violently and causing injuries, both internal and external.

Court this afternoon severed the legalities binding Evelyn and Joseph Saint on application made by the wife six weeks ago, charging gross neglect and absence for over three years. The parties are from West Point.

Marriage licenses were issued to Louis McGee and Kate Alcom, of East Palestine, and George H. Lower and Cora M. Cope.

Electric Wiring.

Charles Schaub, having resigned his position with the electric light company, will contract for all kinds of electric wiring, do all kinds of electric repairing and furnish estimates, and contract for old and new house wiring. Leave orders at Rose & Dix's cigar store, or see him. First class work guaranteed.

SOME SPORTING NOTES

The West End Pottery Team Want to Play Burford's.

EAST LIVERPOOLS GO TO NILES

Two Good Teams Are Scheduled For Next Week—The Hilltops Defeat the Oakdales in a Well-Played Game Yesterday. Other Notes of Interest.

The West End pottery base ball club have an idea firmly fixed in their minds that they can defeat any pottery team in the city, but would prefer to meet the organization that represents Burford's, before playing anyone else. The management of the Burford nine will undoubtedly accept the challenge issued, and a good game can be looked for in the near future.

The Chevalier club and "Easy" Waggoner's team are playing at the West End grounds this afternoon.

The East Liverpools went to Niles on the morning train. They will play ball there today and tomorrow. The Niles team is a strong one, but the home boys expect to be the victors in one game at least.

There are two unusually strong teams booked for games here next week, and the best contests of the season can be expected. The Holy Ghost college team play here Tuesday, while the J. G. Richards, of Braddock, have a game booked for Saturday week.

The Hilltops defeated the Oakdales yesterday afternoon by the score of 9 to 6. The features of the game were the baterry work of Orr and Millwood and the batting of McKinnon, Millwood and Campbell. Batteries—Hilltops—Orr and Millwood; Oakdales, Allison, Davis and Allison. Umpires, Green and McGonagle. The Hilltops are desirous of securing more games and will play any team in the city.

Joe Carey missed the morning train for Niles, but followed the team on the noon train. He will not arrive however, in time for today's game.

The Rose & Dix Stars are playing ball with the Starlights this afternoon.

The sporting man on a local sheet is asleep once more, and states that "Hap" Rearn is playing right field this season, and that Padden used to cover third for the old Eclipse team. The truth of the matter is "Happy" Rearn still plays at short when in the game, and Padden was never known to play third for the Eclipse club.

The Saturday night shoe clerks are trying to arrange a ball game with the day clerks of the same business.
